Career Objective

Cyber Security undergraduate passionate about network security, digital forensics, ethical hacking, and secure software development. Seeking opportunities to apply technical and analytical skills in cybersecurity roles. Interested in threat detection, penetration testing, incident response, IoT security, and cloud security.

Education

Bachelor of Technology (B.Tech)

Computer Science and Engineering (Cyber Security)

Royal College of Engineering and Technology

Expected Graduation: 2027

Current CGPA: 6.14

Higher Secondary Education (12th)

Oriental Higher Secondary School

Percentage: 89%

Secondary Education (10th)

Khuthubuzzaman English Medium High School

Percentage: 99%

Technical Skills

Programming Languages

- Python
- C
- C++

Cyber Security

- Kali Linux
- Wireshark
- Nmap
- Burp Suite
- Metasploit
- OWASP Top 10
- Digital Forensics
- Network Security

- Vulnerability Assessment
- Penetration Testing

Database & Development

- MongoDB
- MySQL
- Node.js
- Git
- GitHub
- HTML
- CSS
- JavaScript

Professional Experience

IoT Assistant Intern

PM VIKAS Training Program, IIIT Kottayam

May 2026 – Present

- Worked on IoT-based automation systems using Raspberry Pi and ESP32 platforms.
- Integrated sensors and embedded devices for monitoring and automation applications.
- Developed Python-based solutions for data collection and hardware communication.
- Assisted in hardware testing, troubleshooting, and system integration.
- Gained practical exposure to Linux environments, MQTT protocol, and AI-enabled IoT concepts.
- Collaborated with team members during implementation and testing of real-world projects.

Cyber Security Intern

Offenso Hackers Academy

24 June 2025 – 30 June 2025

- Completed internship on Cyber Security Fundamentals.
- Learned Network Security concepts and Web Application Penetration Testing.
- Worked with practical cybersecurity tools and techniques.
- Improved understanding of ethical hacking methodologies and security assessments.

Projects

Phishing URL Detection and Awareness System

- Developed a web-based cybersecurity application to identify phishing URLs and improve user awareness.
- Implemented URL analysis using domain structure, HTTPS validation, suspicious keyword detection, and risk classification.
- Integrated an AI-powered chatbot to provide cybersecurity guidance and phishing awareness.
- Technologies Used: HTML, CSS, JavaScript, Node.js, MongoDB.

PulseGuard: Micro-Shock Based Fingerprint Encryption Device

- Designed a hardware-based biometric authentication system using fingerprint recognition and liveness detection.
- Proposed dynamic encryption key generation using fingerprint patterns and bio-response characteristics.
- Focused on spoof detection, secure authentication, and biometric security enhancement.
- Technologies Used: ESP32, Fingerprint Sensor, AES Encryption, Embedded Systems.

IoT Projects using Tinkercad

- Developed virtual IoT circuits and automation systems using Arduino and ESP32 simulations.
- Implemented sensor-based monitoring and control systems.
- Designed LED control, smart automation, and sensor integration projects.
- Technologies Used: Arduino IDE, Tinkercad, ESP32, Sensors.

Personal Portfolio Website

- Developed a responsive portfolio website to showcase projects, certifications, and technical skills.
- Hosted using GitHub Pages.
- Portfolio: reemaac.github.io/portfolio

Certifications

- Tata Cybersecurity Analyst Job Simulation (Forage)
- Cybersecurity Course Completion Certificate (ADBI Institute)
- Cyber Security Internship Certificate (Offenso Hackers Academy)
- IEDC Summit 2025 Participation Certificate
- SUSTA CASE 2025 Case Study Competition Participation
- Shadow Login State-Level Cyber Security Event
- Awareness on Electrical Safety Seminar Participation

Achievements and Activities

- Active participant in Cyber Security workshops, seminars, and technical events.
- Strong interest in cybersecurity research, digital forensics, and ethical hacking.
- Participated in entrepreneurship and innovation activities through IEDC programs.
- Good communication, teamwork, and problem-solving abilities.
- Passionate about sports, reading, technical research, and continuous learning.

Leadership and Soft Skills

- Team Collaboration
- Technical Documentation
- Critical Thinking
- Analytical Problem Solving
- Communication Skills
- Research and Development
- Project Management
- Adaptability and Continuous Learning

Languages

- English
- Malayalam
- Hindi
- Arabic

Areas of Interest

- Cyber Security
- Ethical Hacking
- Digital Forensics
- Cloud Security
- IoT Security
- Penetration Testing
- Threat Intelligence
- Network Security
- Artificial Intelligence in Security

Technical Keywords

Cyber Security, Information Security, Network Security, Ethical Hacking, Penetration Testing, Vulnerability Assessment, Incident Response, Risk Assessment, Threat Detection, Digital Forensics, OWASP Top 10, SIEM, Linux, Kali Linux, Nmap, Wireshark, Burp Suite, Metasploit, Python, C, C++, Node.js, MongoDB, MySQL, Git, GitHub, Cloud Security, IoT Security, Embedded Systems, Raspberry Pi, ESP32, MQTT, Authentication, Authorization, Secure Software Development, Cyber Awareness, Security Analysis, Malware Analysis.

Declaration

I hereby declare that the information provided in this resume is true and correct to the best of my knowledge and belief.
